

Inclusive virtual reality gaming

The West Cheshire Autism Hub is working with Inclusive Community Development (ICD) to bring a virtual reality (VR) and gaming café experience to life.

Activities on offer

- VR experiences using head mounted displays (HMD) headsets
- Wii and many other games available for skill building
- PC gaming favourites
- Board games

Why you should get involved

- Personalised support from a coach skilled and experienced working with individuals who have learning disabilities and/or autism
- An opportunity for progression in a number of different ways rather than simply taking part in activities. VR experiences lend themselves to learning in a safe and structured way

The finer details

- **Two x three-hour sessions** at the Autism Hub each week:
10am-1pm and **1.30pm-4.30pm**
- **Three people** needed per session at £40 per person

West Cheshire Autism Hub, The Bluecoat,
Upper Northgate Street, Chester, CH1 4EE
